- JavaScript

DATES	TIMING	STANDARD	FEE
1 – 31 Dec	6 PM – 8 PM	1st – 12th	₹250

Sangu Nagar, Vadakkankulam, Tirunelveli

Don't just use technology. Learn to create with it!

WELCOME

Give Your Child a Head Start in Technology

This Christmas, turn holiday time into skill time. Sathryx Computer Classes brings a 30-day, hands-on programme to Vadakkankulam where students from 1st to 12th Standard go from switching on a computer to building their own programs and websites – step by step, in a friendly, beginner-friendly way.

COURSE AT A GLANCE

DURATION 1 – 31 December	**CLASS TIMING** Daily, 6:00 – 8:00 PM
ELIGIBILITY 1st to 12th Standard	**COURSE FEE** ₹250 only
LEARNING MODE Practical & Activity-Based	**VENUE** Vadakkankulam, Tirunelveli

WHY PARENTS CHOOSE SATHRYX

- **Beginner-friendly teaching**
  Concepts are explained simply, so every student can follow and enjoy.
- **100% practical learning**
  Students learn by doing – fun activities and coding challenges.
- **11 mini projects + a final project**
  Every student builds and presents their own creation.
- **Course completion certificate**
  A proud achievement to take home on Day 30.

Just ₹250 for 30 days – less than ₹9 a day!

YOUR LEARNING JOURNEY

30 Days. 6 Modules. One Big Transformation.

1

Computer Fundamentals

Hardware, Windows, typing, safe internet, MS Paint & Word

Days 1–4

2

Python Programming

Your first code: variables, loops, functions & 4 mini projects

Days 5–13

3

Web Designing – HTML & CSS

Build and style real web pages, 3 mini projects

Days 14–20

4

JavaScript Programming

Make websites interactive & play with 4 mini projects

Days 21–26

5

Creative Project Development

Plan, build and present your very own project

Days 27–29

6

Final Assessment & Achievement

Coding challenge, showcase & certificate distribution

Day 30

From "What is a computer?" to "Look what I built!"

MODULE 01

DAYS 1–4

COMPUTER FUNDAMENTALS

01

Introduction to Computers

WHAT YOU WILL LEARN

1. Introduction to Computers and Technology
2. Types of Computers and Their Uses
3. Understanding Hardware and Software
4. Introduction to CPU, Monitor, Keyboard and Mouse
5. Operating System Basics
6. Windows Desktop, Files and Folders
7. Keyboard Shortcuts and Typing Practice
8. Internet Basics and Safe Browsing
9. Introduction to MS Paint and Creative Drawing
10. Basic MS Word – Creating and Formatting Documents

PRACTICAL ACTIVITY

ACTIVITY

Create a colourful personal introduction document.

SKILLS YOU WILL PICK UP

Typing | Windows Basics | Files & Folders | Safe Browsing | MS Paint | MS Word

MODULE 02

DAYS 5–13

PYTHON PROGRAMMING

02

Introduction to Coding

WHAT YOU WILL LEARN

1. What is Programming and Why Do We Need It?
2. Introduction to Python
3. Installing and Running Python
4. Understanding Python Syntax
5. Variables and Data Types
6. Numbers, Strings and Basic Operations
7. Taking User Input and Displaying Output
8. Mathematical Operations
9. Conditional Statements (If, Else, Elif)
10. Loops (For and While)
11. Introduction to Lists
12. Basic Functions
13. Finding and Fixing Simple Errors

MINI PROJECTS

MINI PROJECT 1
Simple Calculator

MINI PROJECT 2
Student Marks Calculator

MINI PROJECT 3
Number Guessing Game

MINI PROJECT 4
Basic Quiz Program

SKILLS YOU WILL PICK UP

Logical Thinking | Python Syntax | Loops & Conditions | Functions | Debugging

MODULE 03

DAYS 14–20

WEB DESIGNING – HTML & CSS

Create Your First Website

HTML – Building Web Pages

1. Introduction to Websites and Web Browsers
2. What is HTML?
3. HTML Document Structure
4. Headings, Paragraphs and Text Formatting
5. Adding Images and Links
6. Creating Lists and Tables
7. Creating Simple Forms

CSS – Making Websites Beautiful

1. Introduction to CSS
2. Colours and Backgrounds
3. Fonts and Text Styling
4. Borders, Margins and Padding
5. Styling Buttons and Containers
6. Basic Page Layout and Design
7. Introduction to Responsive Design

MINI PROJECTS

MINI PROJECT 1
Personal Profile Website

MINI PROJECT 2
My School Website

MINI PROJECT 3
Creative Birthday Web Page

SKILLS YOU WILL PICK UP

HTML Pages | CSS Styling | Tables & Forms | Page Layout | Responsive Design

MODULE 04

DAYS 21–26

JAVASCRIPT PROGRAMMING

Make Websites Interactive

WHAT YOU WILL LEARN

1. Introduction to JavaScript
2. Adding JavaScript to HTML
3. Variables and Data Types
4. Operators and Expressions
5. Taking User Input
6. Conditional Statements
7. Loops and Functions
8. Introduction to Events
9. Button Click Interactions
10. Basic DOM Manipulation
11. Making Web Pages Interactive

MINI PROJECTS

MINI PROJECT 1
Interactive Calculator

MINI PROJECT 2
Digital Greeting Card

MINI PROJECT 3
Simple Quiz Application

MINI PROJECT 4
Interactive Button Game

SKILLS YOU WILL PICK UP

Interactivity | Events | DOM Manipulation | Functions & Loops

MODULE 05

DAYS 27–29

CREATIVE PROJECT DEVELOPMENT

Build Something of Your Own

Students combine everything they have learned to create their own project.

DAY 27
Project Idea Selection and Planning

DAY 28
Practical Project Development

DAY 29
Project Completion and Presentation

PROJECT IDEAS

- Personal Portfolio Website
- School Information Website
- Interactive Quiz Website
- Python Calculator
- Student Information System (Basic)
- Creative Technology Project

MODULE 06

DAY 30

FINAL ASSESSMENT & ACHIEVEMENT

Showcase Your Skills

1. Practical Coding Challenge
2. Basic Computer Knowledge Assessment
3. Individual Project Demonstration
4. Student Project Presentation
5. Fun Coding Activities
6. Certificate Distribution

WHAT STUDENTS WILL GAIN

By Day 30, Your Child Will Be Able To...

1. Understand the fundamentals of computers and technology.
2. Learn the basics of Python programming.
3. Understand how websites are created using HTML and CSS.
4. Create interactive web pages using JavaScript.
5. Develop logical thinking and problem-solving skills.
6. Build their own beginner-level technology projects.
7. Gain confidence in using and creating with technology.

SPECIAL HIGHLIGHTS

- 100% Practical-Oriented Learning
- Beginner-Friendly Teaching
- Fun Activities and Coding Challenges
- Hands-On Mini Projects
- Individual Project Demonstrations
- Course Completion Certificate
